📍 Greater Noida, India

PROFESSIONAL SUMMARY

Motivated Computer Science and Engineering student with a solid foundation in **programming, software development**, and **problem-solving**. Proficient in **Java, C++**, and **Python**, with hands-on experience in developing management systems and web applications. Experienced in **database management, system design**, and utilizing modern development tools. A quick learner who effectively applies classroom knowledge to real-world challenges, collaborates in teams, and explores innovative solutions. Seeking to gain practical industry experience through an internship while contributing with enthusiasm and fresh ideas.

EDUCATIONS

ITS Engineering College (AKTU) | Greater Noida

2023 - 2027
CGPA : 7.5/10

B.TECH

- **B.TECH** in Computer Science and Engineering, **ITS Engineering College, 7.5/10**

PROJECTS

1.Fake News Detection

Mar 2026 - Apr 2026

- **Developed** a **machine learning-based** fake news detection system achieving **85%** classification accuracy on a news dataset.
- **Engineered** a scalable platform for fake news detection that incorporated **natural language processing** techniques to assess information credibility, facilitating proactive moderation and increasing trust in shared digital content.

Technologies / Tools Used : *machine learning, natural language processing*

3.Web Based Student Portal

Oct 2025 - Nov 2025

- **Developed** a responsive web application utilizing *HTML, CSS, JavaScript*, and *AJAX*.
- **Designed** features for student login, course registration, and result tracking to enhance user functionality.
- **Integrated** the portal with a backend database for secure data storage and retrieval.
- **Prioritized** clean UI design and smooth navigation, significantly improving user experience.

Technologies / Tools Used : *HTML, CSS, JavaScript, AJAX*

2.Airline Management System

Apr 2025 - May 2025

- **Engineered** an airline management system integrating scheduling, booking, and maintenance modules, optimizing operational workflows and **enhancing service reliability**.
- **Developed** a **Java-based** application for managing flight schedules, passenger records, and ticket bookings. **Implemented Object-Oriented Programming** concepts such as constructors, polymorphism, and abstract classes for modular design.
- **Integrated MySQL** database for efficient storage and retrieval of passenger and flight details.
- **Prioritized** user-friendly interface design and data consistency. **Incorporated advanced analytics** into the airline management system to facilitate data-driven decision-making and support predictive maintenance, minimizing downtime.

Technologies / Tools Used : *Java, MySQL, Object-Oriented Programming*

SKILLS

Databases :	MySQL
Frameworks & Libraries :	React, HTML5, CSS3
Programming Languages :	Java, C++, Python, JavaScript
Soft Skills :	Problem-solving and logical thinking, Team collaboration and communication, Quick learner, adaptable to new tools and environments, Documentation and clear presentation of technical work, Time management and meeting deadlines
Core Subjects :	DBMS, Data Structures & Algorithms, Object Oriented Programming, Computer Networks, Operating System

AWARDS & ACHIEVEMENTS

Structures and Algorithms Using Java – Infosys Springboard (2025)

Infosys

- **Structures and Algorithm Using JAVA, Infosys, 2025**

AWS Solutions Architect Training Program (2026)

AWS

- **AWS Certified Solutions Architect-Associate Training Program, 2026**
